

University of Baghdad

College Name	Baghdad university the college of sciences		
Department	Computer department		
Full Name as written in Passport	RAGHAD KADHUM ABDUL HUSSAN		
e-mail	Raghad_79@yahoo .com		
Career	<input checked="" type="radio"/> Assistant Lecturer	<input type="radio"/>	<input type="radio"/> Assistant Professor <input type="radio"/> Professor
	<input checked="" type="radio"/> Master	<input type="radio"/>	
Thesis Title	Image Noise reduction using Back Propagation		
Year	2004		
Abstract	<p>Image restoration is a process to improve the appearance images uses a mathematical models for image degradation.</p> <p>In this work we have used a neural network to restore images this simplicity in computation ,less amount of storage it takes for estimate experiments with wide parameters ,good for complex problem</p> <p>Different experiments with different option s and parameter have been tested here Signal to noise ratio has been used to evaluate both restored images</p> <p>This method has been shown to be inefficient since the retrieving images suffering from locality therefore it should be useful to use another tool</p>
