Thesis Title	<b>Dohuk Province A Regional-Political Study</b>		
Year	24/11/200 7		
Abstract	<p>The present study aims at analyzing the natural, human and economical factors as known as geopolitical aspects of Dohuk province. Dohuk, as a geopolitical region, has several important factors of power that stimulate the researcher to deeply deal with and to discover these factors and how to invest them, for this province has a political significance owing to its geographical features, particularly its excellent geographical location which ties Iraq with Turkey and Syria and the resulting particular importance.. the borders between these two countries cross geo-strategic zones (commercial, military, water resources).</p> <p>In order to make a scientific analysis for the importance of this province, the present study consists of four chapters. The first chapter deals with the development of political (administrative) charts of the province, and the recently formed administrative units and the incurred development besides the province natural factors. The second chapter deals with the province human factors which deal with the development of the province population, their geographical distribution and their structural and formal nature. The third chapter deals with the province economical factors to show out its agricultural, industrial, commercial and tourist resorts significance, and the effect of these significance on other Iraqi regions or provinces. The fourth chapter discusses the development occurs in constructional, educational, health, and transportation services. This study contains several charts and tables and</p>
