Thesis Title	A Teaching Program on How to Modify Garments and Utilize the Rags		
Year	2002		
Abstract	<p>This dissertation focus on household management and utilization of family skills and capacities which are an important part of human life, and are of the aspects of interaction between the individual and his environment, in the formation of the solid foundation of the integrated society.</p> <p>Within this context and in order to provide the house lady with teaching expertise (skill-based) in field of garment modification and tailoring. Particularly in its present circumstances, where the Iraqi family was facing acute economic pressure, the need arose to experiment with the teaching program, which consists of several technical skills related to ways of modifying used garment, and rags on select samples of Iraqi household ladies, chosen from among the families located in both districts of Baghdad, namely the Karkh and Rosafa.</p>
