Thesis Title	THE PROVINCIAL RULERS AND GOVERNORS OF IRAQ FROM 1958-1993(COMPARATIVE ANALYTIC STUDY)		
Year	1995		
Abstract	<p>The political and administrative leadership plays a fundamental role in the effectiveness of organizations existing in any community and at any level , including the local level . local authorities often surpass the limits assigned to them , by reason of the dynamism of leadership , to similar degree , these authorities fall to exercise the powers entrusted in them due to their inferior leadership.</p> <p>It may be noticed that most of the researches of local administration were only descriptive and demonstrative , which included the local leadership in limited context , whereas the scientific necessary requires the carrying out of field researches within a comparative framework that would bring about the positive experiments of this issue under its real circumstances in the practical life . it is the required scholastic challenge that may start such studies .</p> <p>The paper concentrates on the reality of local leadership depending on the pattern of the Iraqi experiment in this field from 1958 to 1993 through the use of descriptive and analytic approach in demonstrating and introducing the data and criteria of this research .</p> <p>As for the main components of this study , they included on explanatory introduction , the formality of the research and two chapters , as well as conclusions and recommendations . the research's formality comprised of the following topics : the significance and aim of the research , the hypotheses , the scope , the difficulties and the sources and methods of compiling the data .</p> <p>Chapter one was dedicated to the theoretical aspect , Involving four sections . chapter two tackled the practical aspect of the thesis and comprised four section , the paper also included a number of conclusions and recommendations witch were arrived to in relence on the computed results of the analysis</p>
